

**AHCCCS Differential Adjusted Payment (DAP)
CYE 2026 Preliminary Public Notice
Posted January 30, 2025**

Overview and Purpose

The AHCCCS administration is publishing preliminary decisions for Differential Adjusted Payment (DAP) strategies to be implemented in the contract year October 1, 2025, through September 30, 2026 (CYE 2026) for select AHCCCS registered Arizona providers that meet agency established performance criteria.

The DAP rates are to be implemented to ensure that payments are consistent with efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available at least to the same extent that they are available to the general population in the geographic area. AHCCCS will implement DAP rates for the following providers:

1. [Hospitals Subject to APR-DRG Reimbursement, excluding Critical Access Hospitals.](#)
2. [Critical Access Hospitals.](#)
3. [Other Hospitals and Inpatient Facilities.](#)
4. [Freestanding Emergency Departments.](#)
5. [Indian Health Services \(IHS\) and 638 Tribally Owned and/or Operated Facilities.](#)
6. [Nursing Facilities.](#)
7. [Behavioral Health Outpatient Clinics and Integrated Clinics.](#)
8. [Physicians, Physician Assistants, and Registered Nurse Practitioners Specialty Types \(Obstetrics and Gynecology, Pediatrics, Cardiology, and Nephrology\).](#)
9. [Behavioral Health Providers.](#)
10. [Dental Providers.](#)
11. [Home and Community Based Services Providers.](#)
12. [Therapeutic Foster Homes.](#) and
13. [Crisis Providers](#)

The DAP rates in this notice for CYE 2026 will be effective for dates of service beginning October 1, 2025, through September 30, 2026. All noted providers (based on distinct Provider Types) will have the opportunity to be considered for meeting the criteria described further below. All of these requirements are at the discretion of AHCCCS. **If a provider is receiving a DAP in CYE 2026 and cannot meet a milestone and/or cannot maintain its participation in milestone activities, the provider must immediately notify AHCCCS. This notification must be made before the milestone deadline and must state the reason the milestone cannot be met. When applicable, DAP participants are subject to audits, at the discretion of AHCCCS. Within 30 days of AHCCCS being notified of a missed milestone, becoming aware of the provider's failure to maintain participation, and/or determining that the provider has failed a DAP audit, AHCCCS will remove the participant's eligibility for the DAP, effective immediately and for the remainder of the year. If a provider receives a DAP increase for the entire CYE 2026 but it is determined subsequently that it did not meet the CYE 2026 milestones or failed to maintain its participation in the milestone activities in CYE 2026, the provider will be ineligible to receive the applicable DAP for CYE 2027, if a DAP is available at that time.**

The DAP schedule represents a positive adjustment to the AHCCCS Fee-for-Service (FFS) rates. The purpose of the DAP is to distinguish providers committed to supporting designated actions that improve patients' care experience, improve members' health outcomes, and reduce the cost of care. The fee schedules will be limited to dates of service in CYE 2026.

Unless otherwise specified, AHCCCS managed care organizations (MCOs) will be required to pass through DAP increases to their contracted rates to match the corresponding AHCCCS FFS rate increase percentages. This increase is limited to Title XIX/XXI funding only. DAPs, with respect to the MCOs, are authorized under 42 CFR 438.6(c)(1)(iii), which provides states with the flexibility to implement provider payment initiatives, requires certain payment levels by the MCOs to providers, and provides specific services critical to ensuring timely access to high-quality care. AHCCCS implements DAP as a uniform percentage increase under this authority. The Centers for Medicare and Medicaid Services (CMS) must approve all 438.6(c) payments prior to annual implementation.

Under a given DAP initiative, the DAP increase may be applicable to all claims and encounters paid to a provider or may be limited to claims for a subset of select services. DAP increases are limited to Title XIX/XXI claims and encounters only. The DAP increases do not apply to payments made based on a cost-to-charge ratio. Additionally, DAP increases are applied to claims after all the reimbursement rules are applied, but before the "Lesser Of" logic is determined. **For providers to receive the DAP, the provider must include the value of the additional DAP increase when billing directly to AHCCCS or an MCO for services.** This notice describes how the DAP increase will be applied for each initiative.

Please note that funding for DAP rate increases is subject to the appropriation of State funds and budget constraints. Federal funding for DAP rate increases is contingent upon federal approval. All decisions or considerations included in this notice are therefore subject to the availability of funds and federal approval.

If a facility or a provider qualifies for one or more of the following DAPs, they will be added to a Qualifying Provider list that can be found on the AHCCCS website under Plans/Providers - Other Provider Programs and Initiatives - Differential Adjusted Payment (DAP). If there are any discrepancies or changes they must be submitted to AHCCSDAP@azahcccs.gov prior to the start of CYE 2026. **All AHCCCS IDs must be active by April 1, 2025, to be eligible for the DAP in CYE 2026.**

In relation to the following DAPs, the qualifying Health Information Exchange (HIE) organization is designated as Contexture.

Attachment B: Health Information Exchange Definitions

The HIE will be requiring data quality standards, minimum performance standards, and upper thresholds, and will continue to monitor the usage of the HIE during the DAP period to ensure continuous quality data and usage of the HIE is maintained. Additional definitions and requirements can be requested from the provider's Quality Improvement Advisor.

CommunityCares Program: The CommunityCares program is Contexture's Social Determinants of Health Closed-Loop Referral System. The program partners with UniteUs to offer a screening tool to identify social needs and provides community partners to send referrals within the platform. Within the CommunityCares platform a referral can be made, and tracked, and the referral loop closed after completion.

Health Information Exchange Data Sender: A data sender has successfully set up an inbound data feed to the production environment of Contexture's Health Information Exchange Portal and securely sends patient information to be accessed by other healthcare organizations and professionals.

Health Information Exchange Health Data Quality: Health Information Exchange (HIE) participants will have real-time, high-quality, actionable information with ONE Platform's focus on data quality and reporting functionality. To support health data quality, Contexture's implementation of the HIE Data Quality Profile will indicate data senders' opportunities to improve data in the Contexture production environment.

Health Information Exchange Portal: The electronic health information exchange portal is a secure web-based portal that allows providers to access and securely share a patient's medical history and clinical results. The HIE portal gives a complete view of each patient including laboratory results, radiology results, admission, discharge, and transfer information (ADTs), Medication, allergies, and problems. The portal enhances patient care, streamlines coordination of care, and increases reimbursements.
