

The new Provider Enrollment Policy Manual is now available

December 1, 2024

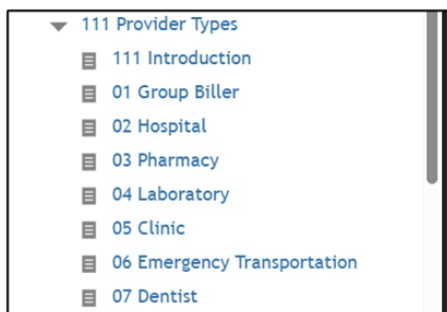

AHCCCS is committed to improving service to providers. A new Provider Enrollment Policy Manual is now available and can be found on the AHCCCS [Provider Enrollment website](#). The direct link to the new tool can be found here: [Provider Enrollment Policy Manual](#).

Providers are encouraged to review the AHCCCS Provider Enrollment Policy Manual. A [training video](#) will be available to you on the [APEP](#) page of azahcccs.gov in the Resources section.

The Provider Enrollment Policy Manual is a tool for providers to help determine requirements when applying to become an AHCCCS enrolled provider.

Key features of the Provider Enrollment Policy Manual:

- This comprehensive manual offers specific provider enrollment screening criteria such as screening activities by risk level, requirements for fingerprint based criminal background checks, site visits and more!
- Chapter 111 of the manual describes requirements specific to each available AHCCCS Provider Type. Each section identifies risk level, requirements for site visits, fingerprinting, and required license and certification. Additionally, each section identifies what categories of service (COS) are available for each provider type and what license or certification is required to get the COS.

Please note that this enrollment manual does not replace or implement any new requirements than what is set forth in the [AHCCCS Medical Provider Manual \(AMPM\) chapter 610](#). This tool is to assist providers in understanding enrollment requirements that are supported in AHCCCS Policies and Procedures.
