

Arizona Long Term Care System (ALTCS), Elderly and Physical Disability (EPD) Actuarial Memorandum

I. Purpose

The purpose of this actuarial memorandum is to demonstrate that the Arizona Long Term Care System (ALTCS) Elderly and Physical Disability (EPD) capitation rates were developed in compliance with 42 CFR 438.6(c). It is not intended for any other purpose.

This memorandum presents a revision to the EPD capitation rates effective April 1, 2015, as filed with CMS in February 2015. The revision reflects enhanced payments to nursing facilities (NFs). These rates are updated retroactively for the fourth quarter of CYE 15, from July 1, 2015 through September 30, 2015.

Historical approved and submitted actuarial certifications and rates can be found here:

<http://www.azahcccs.gov/commercial/ContractorResources/capitation/capitationrates.aspx>

II. Overview of Changes

For CYE 15, NFs are eligible for enhanced payments. Within each Geographic Service Area (GSA), the enhanced payments are allocated among the NFs and Contractors using claims and encounter data incurred between October 2012 and September 2013. This data was used since Arizona Administrative Code mandates the use of twelve complete months of data. The most complete twelve months of data that would not require application of any completion factors was the period ending September 2013. Older data allows that calculation to proceed without adjustment for incurred but not reported (IBNR) or other delays in submission and processing.

Arizona Health Care Cost Containment System (AHCCCS) employs data validation techniques to determine the credibility of the claims and encounter data. Discrepancies in bed days year over year, if any, are researched and appropriately resolved. For this year no discrepancies were noted.

III. Methodology for Calculating Capitation Adjustments

NF Enhanced Payments

EPD Long Term Care per-member-per-month (PMPM) capitation adjustments were developed based on October 2012 to September 2013 historical bed day utilization. The PMPM adjustments were developed based on each Contractor's historical proportion of bed days and actual/projected member months by GSA. AHCCCS excluded Fee For Service (FFS) utilization from the capitation adjustments. Bed day data for Contractors whose utilization of a particular NF was less than 10% of total bed days for that facility was added to the data for the Contractor with the highest

volume of utilization at that facility. Funding for these enhanced payments will be added to the pending EPD Contractors' capitation rates effective for the period of July 1, 2015 through September 30, 2015. The estimated impact of this retroactive capitation rate adjustment is a statewide increase of approximately \$12.9 million.

State law restricts AHCCCS from making adjustments to capitation for NF enhanced payments that exceed the monies available from the NF enhanced payment funding source. Thus when AHCCCS developed the capitation adjustment, a hold back of 20% was applied. The hold back exists due to a provision in the legislation that prohibits General Fund monies from being used to pay the enhancements. The hold back helps ensure that enhancements paid out at any point are not greater than the funds collected and available, in the event that one or more facilities are delayed in paying their assessments. It also provides for deviations from expected to actual amounts of assessments collected. After the end of the contract year AHCCCS will perform a reconciliation to distribute the full amount of the assessment revenue. This reconciliation will reconcile the NF enhanced payment component paid to Contractors with the actual NF enhanced payment funds available.

Administration/Risk Contingency/Premium Tax Components

The administration and risk contingency components were not impacted by the above changes, since the administrative expenses assumed in the rates result from a competitive bidding process, and the Contractors are not at any risk for the NF enhanced payments. The premium tax component was impacted by the above changes.

IV. Proposed Revised Capitation Rates and Their Impacts

Table I below includes the net capitation rates on a statewide basis for all rate cells as well as the estimated budget impact based off of actual EPD Prospective Dual, Non-Dual, and Acute Only member months for July 2015 through September 2015. Due to lag time in processing prior period coverage (PPC) enrollment, Table I contains projected PPC member months. Tables IIa and IIb below summarize the adjustments made to the pending CYE 15 EPD Prospective Dual and Non-Dual capitation rates on a statewide basis. The impact to Contractors ranges from 4.5% to 5.1%. Appendix I displays proposed EPD rates by geographical service area and Contractor.

Table I: Proposed Capitation Rates and Budget Impact

Rate Cell	4Q15 (7/1/15 - 9/30/15) MMs	Previous 4Q15 Rate	Proposed 4Q15 Rate	Previous Estimated 4Q15 Capitation	Revised Estimated 4Q15 Capitation	Dollar impact on 4Q15 estimated current capitation	Pct impact on 4Q15 estimated capitation
EPD (Prospective Dual)	65,159	\$2,961.83	\$3,126.59	\$ 192,989,790	\$ 203,725,478	\$ 10,735,687	5.6%
EPD (Prospective Non-Dual)	12,946	\$4,697.93	\$4,863.51	\$ 60,819,364	\$ 62,963,000	\$ 2,143,637	3.5%
PPC	2,863	\$989.48	\$989.48	\$ 2,832,876	\$ 2,832,876	\$ -	0.0%
Acute Only	1,157	\$542.68	\$542.68	\$ 627,881	\$ 627,881	\$ -	0.0%

V. Actuarial Certification of the Capitation Rates

I, Matthew C. Varitek, am an employee of Arizona Health Care Cost Containment System (AHCCCS). I am a Member of the American Academy of Actuaries and a Fellow of the Society of Actuaries. I meet the qualification standards established by the American Academy of Actuaries and have followed the practice standards established from time-to-time by the Actuarial Standards Board.

The rates were developed using generally accepted actuarial principles and practices and are considered to be actuarially sound. The rates were developed to demonstrate compliance with the CMS requirements under 42 CFR 438.6(c) and are in accordance with applicable laws and regulations. The rates are appropriate for the Medicaid populations covered and Medicaid services to be furnished under the contract. The rates may not be appropriate for any other purpose. The documentation has been included with this certification. The proposed actuarially sound capitation rates that are associated with this certification are effective for the three-month period July 1, 2015 to September 30, 2015.

In developing the actuarially sound CYE 15 capitation rates and the actuarially sound methodology for the nursing facility enhanced payments, I have relied upon data and information provided by the Contractors and the AHCCCS internal databases. I have accepted the data without audit and have relied upon the Contractor auditors and other AHCCCS employees for the accuracy of the data.

This actuarial certification has been based on the actuarial methods, considerations and analyses promulgated from time-to-time through the Actuarial Standards of Practice by the Actuarial Standards Board.

This certification letter assumes the reader is familiar with the EPD program, Medicare and Medicaid eligibility rules and actuarial rating techniques. It is intended for AHCCCS and Center for Medicare and Medicaid Services (CMS) and should not be relied upon by third parties. Other readers should seek the advice of actuaries or other qualified professionals competent in the area of actuarial rate projections to understand the technical nature of these results.
