Correction Notice

Allowable HCPCS Codes for a Provider with a Counseling Facility License

This notice amends the February 7, 2025 Constant Contact communication about the HCPCS codes applicable to providers with a Counseling Only Facility license under Arizona Department of Health Services (ADHS). The earlier notice indicated *case management services (T1016)* were covered; however, this service is not approved within the scope of license as specified in Arizona Administrative Code, Title 9, Chapter 10, Article 19.

AHCCCS has updated the provider profile for AHCCCS registered CF (Counseling Facility) providers and removed T1016 from the list of covered HCPCS codes to align with ADHS licensure and the approved scope of service for this type of Health Care Institution. The AHCCCS [Behavioral Health Services Matrix \(B2 Matrix\)](#) will show the provider types that are allowed to bill T1016 code.

Impacted Providers

- Providers licensed with ADHS solely as a “counseling facility” *and*
- providers submitting claims to the American Indian Health Program (AIHP) *and*
- Providers submitting claims to AIHP behavioral health services with a HCPC code

Requirements

As defined in A.A.C. R9-10-101.60, a “Counseling facility” means a health care institution that only provides counseling, which may also include:

1. DUI screening, education, or treatment according to the requirements in 9 A.A.C. 20, Article 1; or
2. Misdemeanor domestic violence offender treatment according to the requirements in 9 A.A.C. 20, Article 2.

A provider with a Counseling Facility license with ADHS, should be registered with AHCCCS as a Counseling Facility (CF) provider type, and is limited to billing from the list of following HCPCS codes below. Claims submitted for services that fall outside the HCPCS codes listed below will be denied.
