Scottsdale Shea Transplant Component Payments Can be Made to John C. Lincoln

Per the Reinsurance Manual, facilities must bill all Transplant services for a member in Transplant Components and this includes services performed at subcontracted and affiliated hospitals. John C. Lincoln is a Scottsdale Shea affiliated hospital. They both share the same Federal Employer Identification Number, therefore, payments can be made to John C. Lincoln for Transplant stages that have no hospital claim for Scottsdale Shea but are being performed under the Scottsdale Shea Transplant contract.
