As noted in today's EVV Kickoff Meeting, in preparation for our internal Business Rules/Requirements meetings with our vendor SANDATA that are scheduled for next week, we'd like to get the MCO's thoughts on a set of questions (attached) to ensure that we are making informed inputs, recommendations, etc.

With the above in mind, please provide responses, thoughts, etc. regarding the attached questions, ideally at least your basic inputs by COB Monday 8/22 so that we when our meetings begin bright and early Tuesday morning we have consideration of this information, however please submit whenever you can.

In addition to these questions please add any notes/items you think we should ask but didn't and/or items you think we should consider.

Any questions let me know. Thanks!
