02 - Add
11 - Response

02 - Add (Unsolicited), is used when submitting an electronic claim and attachment at the same time. This is an automated process and the fastest way for the claim an attachment to link. If an electronic claim comes in with a **PWK** number, the system will **hold the claim for 15 days** to give you time to upload the attachment to TI Portal. Once the attachment has been uploaded and successfully linked to the claim, the claim will drop for processing.

11 - Response (Solicited), is used when you receive a letter that the claim has been denied for no documentation. In this case you must use the **CRN** (Claim Reference Number) of the denied claim in the Payer Claim Control Number. Only upload the file required to TI Portal. **DO NOT RESUBMIT THE CLAIM.**

When 11 - Response is selected, you must make sure that the following codes are selected from the drop down list, as shown below:

Claim Status Category Code R4 - Documentation Request

Additional Information Request Code 11503-0

Code List Qualifier Code LOI - LOINC Codes

NOTE: For an 11 – Response (Solicited) using the CRN, this requires a **manual linking** process. It can take up to 4 to 6 weeks to link the upload to the claim.

PWK NUMBER

The PWK number is used when submitting an electronic claim and its corresponding attachment at the same time. There is a system auto linking process where it finds the PWK number to its corresponding attachment. If a match is found, then it will be linked and will drop for processing.

The PWK number is a unique number that you will create for each claim and its corresponding attachment which will be used for the auto linking process.

The PWK number on the claim must match exactly with the one entered on the corresponding attachment (275 attachment upload). Failure to do so will result in attachment not linking with the claim, and the claim will be denied.

If a claim requires an attachment and a PWK number is entered on the electronic claim, the system will hold the claim for 15 days to allow you to submit the attachment at a later day.

If after 15 days the attachment has not been uploaded, the attachment linking process will fail. The claim will be denied.

At this point you can upload the attachment again, but instead of using a PWK you will use the CRN to upload the attachment. You do not need to re-submit the claim.

Keep in mind that by using the CRN it makes the linking process a manual process, which can take 2 to 4 weeks for the claim to be re-processed.
