**Subject:** Rate Parity (2014 Rates) - Upload into PMMIS

It recently came to our attention that there was a delay in the loading of rates to the RF144 PCP Rate Parity Table for 1/1/2014.

Rate staff have confirmed that these rates were received late from CMS, and were therefore not loaded to the table until last night with an effective date of 1/1/2014 dates of service.

We will work with our technical staff to obtain an adhoc reference extract of this table and get it out to everyone as soon as possible, since the next production Reference extracts will not occur until 2/1.

Please note that the updated rates are currently available on the webpage as needed in the mean time.

Our apologies for any issue this may cause. If you have questions please let us know.
