1. **AHCCCS OVERVIEW**

AHCCCS is the single state Medicaid agency for the State of Arizona. In that capacity it is responsible for operating the Title XIX and Title XXI programs through the State's 1115 Research and Demonstration Waiver, which was granted by the Centers for Medicare and Medicaid Services (CMS), U.S. Department of Health and Human Services. As of July 1, 2014, AHCCCS provides coverage to approximately 1.5 million members in Arizona. In addition to the Arizona Medicaid program, AHCCCS supports processing for the Hawaii Medicaid program (Med-QUEST) and processes claims for several non-Medicaid programs including the Arizona Department of Corrections. Med-QUEST provides coverage to approximately 400,000 members.

Over 81% of the AHCCCS program's expenditures in SFY 2014 were through managed care programs. AHCCCS contracts with Managed Care Organizations (MCO's) that are responsible for providing Acute, Long Term Care, and Behavioral Health Services. A list of contracted plans can be found here: <http://www.azahcccs.gov/applicants/healthplans/available.aspx>

The program has a total fund budget for FY 2015 of approximately \$10.96 billion. AHCCCS has over 55,000 active providers in Arizona and Med-Quest has approximately 13,000 active providers in Hawaii, such as individual medical and behavioral health practitioners, therapy disciplines, institutions, durable medical equipment companies and transportation entities. Additional information may be found on the AHCCCS website reporting page: <http://www.azahcccs.gov/reporting>. A more detailed overview of the Med-QUEST Program is available at the Med-QUEST website, www.med-quest.us.

2. **PROJECT OR SERVICE OVERVIEW/BACKGROUND**

The purpose of this Request for Proposal (RFP) is to solicit proposals from experienced vendors who provide software and services for the support of the Program Integrity activities for the lines of business supported by the Agency. AHCCCS seeks to enhance and increase the effectiveness of the current program integrity efforts through the use of existing software solutions, with proven products that can be readily integrated within existing infrastructure.

The past utilization of this service was approximately \$1.7 Million expenditures over the life of the five (5) year contract.

The objective of AHCCCS is to become a driver of quality care, recognized for effective cost management; a health information resource to support public policy discussions; and a valued health insurance option for their respective State residents and tax payers. To accomplish this, the specific goals include:

- Provide Program Integrity staff with timely scheduled and ad hoc management, medical and program/service reports, and information using state-of-the-art analytic and reporting tools, and system utilities that will enhance the staffs' capabilities to administer, plan, and evaluate the performance and utilization of the State's programs, health plans, providers, and members.
- Identify patterns of billing practices and outliers across multiple lines of business, member categories, providers, and health plans, track service levels, and usage to ensure that the programs are not incurring costs for inappropriate care and are not paying for fraudulent services.
- Provide reporting to monitor and analyze claims and encounters against expected submission volume levels by service categories.
