Dear President Fann, Speaker Bowers, and Chairmen Gowan and Cobb:

Pursuant to A.R.S. § 36-2925, subsection H, AHCCCS is submitting this status report on the agreement between AHCCCS and the State of Hawaii for data processing activities using the AHCCCS Prepaid Medicaid Management Information System (PMMIS). This report summarizes the financial and operational activities for the Interstate Agreement between AHCCCS and the Med-QUEST Division/Department of Human Services for Hawaii.

In accordance with A.R.S. § 36-2927, Intergovernmental Services Funds have been set up to deposit the monies received from Hawaii and to account for the expenditures that are incurred on its behalf. Chart 1 (attached) summarizes the revenues and expenditures of monies from these funds for State Fiscal Year (SFY) 2020.

We currently work with Hawaii on the following:

1. On-going Hawaii Operations and Maintenance Support. Arizona continues to provide support for ongoing operations and maintenance for the Hawaii PMMIS (HPMMIS). Hawaii is charged for work done by the AHCCCS Information Technology (IT) staff and independent contractors, a designated percentage of other specified AHCCCS personnel in IT, direct Hawaii costs, and a portion of AHCCCS indirect operating costs which benefit the project.

2. Medicaid and Children's Health Insurance Program Business Information Solutions (MACBIS). This project better enables the States to collect data in a more timely and synchronized manner to create an integrated view of the programs for better decision making. This project has been implemented for both States. There are ongoing data needs and data improvements as requested by CMS that are currently in process.

3. Electronic Visit Verification. The EVV project is a CMS mandated project to help eliminate fraud and abuse of services rendered at a home setting. Section 12006(a) of the 21st Century Cures Act mandates that states implement EVV for all Medicaid personal care services (PCS) and home health services that require an in-home visit by a provider.

4. On-going Hawaii Operations and Maintenance Support for the Data Warehouse Systems. Arizona continues to provide support for the Hawaii Decision Support System.

5. Provider Registration Module Replacement. This project modernizes the systems and processes which AHCCCS and Hawaii use to register providers. The goal of this project is to transform the process from a paper-based to a self-service electronic process. The aim is to decrease the work load on both the provider community and the states while decreasing registration time. This system was rolled out in August of 2020 and is in full use by both States.

#### **HAPA (Hawaii-Arizona PMMIS Alliance) Savings**

Financial activities for the HAPA Savings fund, which was set up to track the dollars related to the savings achieved due to the HAPA Project, are illustrated in Chart 1A (attached).

#### **Project Summary**

As a result of this joint venture, both States have been able to share costs, knowledge and strategies for more efficient day to day operations as well as for special projects. We continue to serve as a model for other state joint ventures and look forward to many more years working together with continued successes.

If you have any questions regarding this report or the project itself, please feel free to contact me at (602) 417-4277.

Sincerely,

Dan Lippert
