

January 15, 2021

The Honorable Douglas A. Ducey
Governor of Arizona
State Capitol
1700 West Washington
Phoenix, Arizona 85007

The Honorable Karen Fann
Arizona State Senate
1700 West Washington
Phoenix, Arizona 85007

The Honorable Russell Bowers
Speaker of the House
Arizona House of Representatives
1700 West Washington
Phoenix, Arizona 85007

Dear Governor Ducey, President Fann, and Speaker Bowers:

In accordance with A.R.S. §36-2907.14 and §36-2907.15, please find the enclosed report regarding the Opioid Treatment Program (OTP) Plan Reporting and 24/7 Access Point Standards. Do not hesitate to contact me at (602) 417-4458 if you have any question or would like additional information.

Sincerely,

Jami Snyder
Director

ANNUAL REPORT 2020

OPIOID TREATMENT PLAN SUMMARY REPORT

24/7 CENTER OF EXCELLENCE STANDARDS

Douglas A. Ducey, Governor

Jami Snyder, Director

Arizona Health Care Cost Containment System

January 2021

BACKGROUND

The Arizona Revised Statute §36-2907.14 states: the Administration and its contractors may reimburse an Opioid Treatment Program Provider for enrolled members only if the provider demonstrates enforcement of each plan contained in the annual report." Additionally, §36-2907.15 indicates that the Administration and the Department of Health Services shall establish standards for designating centers of excellence for treating opioid use disorder statewide.

SUMMARY

Opioid Treatment Program Reporting

A.R.S. § 36-2907.14 requires all currently established Opioid Treatment Program providers (OTP) receiving Medicaid funding to submit an annual report to the Arizona Health Care Cost Containment System (AHCCCS). Additionally, those providers interested in establishing new OTPs are required to submit reports for review in order to receive AHCCCS funding. This reporting requires that providers supply the following:

1. A security plan
2. A neighborhood engagement plan
3. A comprehensive patient care plan
4. A community relations and education plan
5. A diversion control plan

In November, AHCCCS received 45 plans from OTPs registered with AHCCCS and began reviewing the submissions. This year's submissions were all timely and complete. None required additional technical assistance. All plans, as detailed above, and corresponding information submitted by the OTPs was determined to be sufficient. Additionally, each provider was officially notified of the sufficiency of the information supplied relative to the reporting requirements on December 23, 2020.

24/7 Access Points, previously known as Centers of Excellence

As stipulated in A.R.S. §36-2907.15, AHCCCS and the Arizona Department of Health Services (ADHS) were required to develop standards for the designation of Centers of Excellence, now referred to as 24/7 access points, for treating opioid use disorders statewide. AHCCCS and ADHS worked to develop the standards that included, but are not limited to, those outlined in the legislation. Additional requirements were added to ensure increased clinical and care coordination in alignment with the AHCCCS integrated, whole person-centered care model. These standards are identified in Appendix A.

The 24/7 access point standards were finalized in December 2019 and were posted to the AHCCCS website. AHCCCS contracted health plans were provided with the final standards for contracting and oversight of their provider networks. The 24/7 access point providers listed on the AHCCCS website meet the required standards. Two providers previously listed on the website have been removed. The locations that were removed are Crisis Stabilization Units; these units do not specialize in Opioid Use Disorder treatment and were not in alignment with the finalized standards. Additionally, on January 4, 2021, Community Medical Services transitioned its 24/7 access point services to a new location in Phoenix. Community Medical Services and the other 24/7 access point providers are listed in Appendix B.

With Governor Ducey's March 11, 2020 Declaration of Emergency and Executive Order regarding the pandemic, OTPs, inclusive of the 24/7 access points, worked closely with the State Opioid Treatment Authority (SOTA) to ensure continued services for those in need. Modifications to services and requirements were made in alignment with the Substance Abuse and Mental Health Administration's (SAMHSA's) expectations, including the provision of services via telehealth options, curbside dosing, and additional annual reporting requirements. Additionally, statewide learning collaborative activities between the 24/7 access point providers were suspended to allow for providers to continue to meet the needs and demands of the community. Discussions with participating health plans and providers are underway to develop an interim plan to resume the learning collaborative while continuing to meet the needs of members during the pandemic. Reporting requirements continue to be evaluated based on modifications made in accordance with SAMHSA recommendations.

APPENDIX A

Standards for 24/7 access points

- Must have obtained AHCCCS approval for each plan identified within A.R.S. 36-2907.14.
- Provides a 24/7 access point for individuals with Opioid Use Disorder (OUD) to receive immediate connection to Medication Assisted Treatment services inclusive of morning, afternoon, evening, and late evening dosing hours.
- Provides all three FDA approved medications for Medication Assisted Treatment (MAT) (methadone, Buprenorphine, Naltrexone) or be able to demonstrate dedicated partnerships with other providers in the community for warm handoffs that will occur the same day.
- Provides individuals seeking OUD treatment access to psychosocial and recovery support services as a part of the (MAT) model. This shall be demonstrated with on-site 24/7 access point staff who are licensed general counselors and certified Peer Support Specialists.
- Must demonstrate ability to provide and review information regarding Opioid Treatment Program Providers and Facilities with potential and current members and identified family interested in treatment.
- Must demonstrate ability to provide and review information regarding office-based opioid agonists treatment providers.
- Directly provides, or can demonstrate a direct relationship with identified partners, for whole person care through an integrated model, to address behavioral health and physical health needs.
- Provider must conduct ongoing clinical assessments of patients through a multidisciplinary treatment planning process that indicates services and care levels through a person-centered approach.
- Provider must utilize ongoing review strategies to identify and prepare patients for graduation from 24/7 access points to other outpatient services. Provider must share with patient the goal of graduation to include:
 - a. Transition to OTP and other MAT providers in the community
 - b. Transition to other outpatient primary care providers in the community through coordination with health plan and warm hand off to new provider.
 - c. Transition to other outpatient counseling services in the community through coordination with health plan and warm hand off to new provider.
- Provider must demonstrate the ability to provide reporting on:
 - a. Quality of care metrics
 - b. Patient outcomes
 - c. Member satisfaction
- Provider must participate in statewide learning collaboratives focused on:
 - a. Sharing of best practices
 - b. Peer-to-peer support between 24/7 locations

APPENDIX B

24/7 Access Point Providers

CODAC Health, Recovery and Wellness

380 E. Ft. Lowell Road, Tucson, AZ 85705

520-202-1786

Community Bridges, East Valley Addiction Recovery Center

560 S. Bellview, Mesa, AZ 85204

480-461-1711

Community Medical Services

2806 W. Cactus Road, Phoenix, AZ 85029

602-607-7000

Intensive Treatment Systems, West Clinic

4136 N. 75th Ave #116 Phoenix, AZ 85033
