

March 6th, 2024

The Honorable Katie Hobbs  
Governor of Arizona  
1700 W Washington  
Phoenix, Arizona 85007

The Honorable Warren Petersen, President  
Arizona State Senate  
1700 W Washington  
Phoenix, Arizona 85007

The Honorable Steve Montenegro, Speaker  
Arizona House of Representatives  
1700 W Washington  
Phoenix, Arizona 85007

Dear Governor Hobbs, President Petersen, and Speaker Toma:

Pursuant to A.R.S. 36-2023(C)(6), AHCCCS is required to submit an annual report on its Substance Use Disorder (SUD) treatment programs. This report for 2024's annual reporting includes the names and locations of each program, the amount and sources of funding for each program, the number of clients who received services during the preceding fiscal year, the demographic descriptions of clients served, and a population description of client problems addressed by the programs, including the types of substances used. This report also includes a summary of the numbers and types of services available and provided during the preceding fiscal year and an evaluation of the results achieved by the programs.

If you have any questions regarding this report, please feel free to contact me at (602) 417-4711.

Carmen Heredia

Director

Cc: Richard Stavneak, Director, Joint Legislative Budget Committee  
Ben Henderson, Director, Governor's Office of Strategic Planning and Budgeting  
Meaghan Kramer, Health Policy Advisor, Office of the Governor

**Annual Report:  
Substance Use Treatment Programs  
State Fiscal Year (SFY) 2024**

**July 1, 2023 to June 30, 2024**

**February 2025**

**Carmen Heredia, Executive Director**

# Substance Use Treatment Programs State Fiscal Year 2024

## Background

The Arizona Health Care Cost Containment System (AHCCCS) is the single state Medicaid agency for the State of Arizona. In that capacity, it is responsible for operating the Title XIX and Title XXI programs through the State's 1115 Research and Demonstration Waiver, which was granted by the Centers for Medicare and Medicaid Services (CMS), U.S. Department of Health and Human Services (HHS). As of November 2024, AHCCCS provides coverage to approximately 2.2 million members in Arizona. AHCCCS also administers several Non-Title XIX programs through federal grant funds received from the Substance Abuse and Mental Health Services Administration (SAMHSA) under HHS.

AHCCCS has conducted an assessment of its Substance Use Disorder (SUD) treatment programs and services in accordance with the requirements outlined in Arizona Revised Statutes (A.R.S.) §36-2023(C)(6):

*Prepare an annual report on drug abuse treatment programs in this state that receive monies from the administration to be submitted by January 1 of each year to the governor, the president of the senate, and the speaker of the house of representatives and to be made available to the general public through the Arizona drug and gang prevention resource center. The report shall include:*

- (a) The name and location of each program.*
- (b) The amount and sources of funding for each program.*
- (c) The number of clients who received services during the preceding fiscal year.*
- (d) A description of the demographic characteristics of the client population served by each program, including age groups, gender and ethnicity.*
- (e) A description of client problems addressed by the programs, including the types of substances abused.*
- (f) A summary of the numbers and types of services available and provided during the preceding fiscal year.*
- (g) An evaluation of the results achieved by the programs.*

In preparation of this report, AHCCCS utilizes updated member billing information, using specific parameters to focus on substance use treatment programs and the services they provided within the report period from AHCCCS Complete Care (ACC) Plans, including AHCCCS Complete Care Plans with Regional Behavioral Health Agreements (ACC-RBHAs), and Tribal Regional Behavioral Health Authorities (TRBHAs). Information in this report includes but is not limited to demographic information for members utilizing SUD treatment services and levels of care during the reporting period (detoxification, residential, outpatient, medication-assisted treatment (MAT), etc.), and funding sources used to pay for SUD treatment services.

While Title XIX/XXI funds provide coverage for most of the treatment services, several Non-Title XIX/XXI funding sources are utilized to provide and expand coverage for services to individuals in need across the state. NTXIX/XXI funds are used to increase behavioral health services to Medicaid members and provide treatment services to individuals who otherwise would not have access to such care (i.e., uninsured or underinsured). Additionally, they fund critical efforts and outreach that remove barriers and create pathways to treatment, support retention, engagement, and success in treatment (e.g., gender-specific, family, and peer support efforts), and prevent overdose deaths through education, access to naloxone, and fentanyl test strips.

## Substance Use Treatment Programs State Fiscal Year 2024

In State FY 2024, AHCCCS revised the methodology used to gather SUD treatment services data to more accurately reflect members served by and specific SUD-related treatment services provided to those members during this report year. The methodology for State FY 2024 used AHCCCS billing data and financial reports to determine the number of members with a SUD diagnosis and the treatment provided to those members. Prior SUD Legislative Reports utilized only billing data of SUD providers as reported and identified by the Managed Care Organizations (MCOs). Though this information provided some information, AHCCCS determined that it did not thoroughly reflect the true number of members living with and receiving treatment for a SUD diagnosis(es). As such, AHCCCS chose to forgo using MCO-reported and identified SUD providers; instead AHCCCS evaluated members enrolled with AHCCCS with an active (not in remission) SUD disorder listed as the first, second, third, fourth, or fifth diagnosis in service billing statements.

The data in this report demonstrates significant changes in the members living with a SUD diagnosis and receiving treatment to address their SUD from previous years. This methodology of identifying members and treatment services is a more accurate representation of the services provided to both TXIX/XXI and NTXIX/XXI members during State FY24. Not only are the methodological changes in data gathering in response to improved understanding of data collection and analysis for this population, AHCCCS also identified significant increases in Medicaid billing for outpatient behavioral health services reported in State FY23. The AHCCCS Office of Inspector General and the Arizona Attorney General’s Office launched a multiagency review and investigation of potential fraud, waste and abuse among behavioral health residential and outpatient behavioral health services. This led AHCCCS to revise the methodology for assessing and accounting for treatment services and members involved in SUD-related treatment included in this legislative report.

Utilization data in this report are for dates of service in State FY 2024 from July 1, 2023, through June 30, 2024, and were extracted in November 2024. Due to the four-month lag from the last date of service, data may be slightly under-reported. Lag is related to billing delays of up to 90 days for health plan submission and time for AHCCCS to process billing. This lag is not likely to result in significant changes in the overall numbers included in this report, due to the 90 day timeline required for submissions to be paid in full.

### Location of Substance Use Disorder Treatment Programs

The locations of the state’s SUD treatment programs are divided into three distinct geographic service areas (GSAs) throughout the state with oversight provided by MCOs, including ACC-RBHAs and TRBHAs. The GSA served by each ACC, ACC-RBHA, and TRBHA are indicated below.

ACC, ACC-RHBA and TRBHA	GSA
Arizona Complete Health - ACC-RHBA	Central & South
Banner University Family Care - ACC	Central & South
Care1st - ACC	Central & North
Gila River Indian Community - TRBHA	Central & South
Health Choice Arizona - ACC	Central & North
Mercy Care - ACC-RHBA	Central
Molina Healthcare - ACC	Central

## Substance Use Treatment Programs State Fiscal Year 2024

Pascua Yaqui Tribe - TRBHA	South
UnitedHealthcare - ACC	Central & South
White Mountain Apache Tribe - TRBHA	North & South

The MCOs are required to maintain a comprehensive network of behavioral health providers to deliver intervention and treatment services to members enrolled in the AHCCCS system. This structure allows communities to provide services in a manner appropriate to meet the unique needs of members and families residing within their local areas. Appendix A lists the names and locations of providers throughout the state that provided AHCCCS funded Substance Use Treatment Services during State FY 2024. The total number of contracted providers for each MCO are summarized below. AHCCCS registered providers may also provide services to AHCCCS members and bill AHCCCS directly, these providers are represented in the table below categorized by fund source.

Claim Health Plan Name (ACC, ACC-RHBA, TRBHA, etc.)	Number of SUD Providers by payor <sup>1</sup>
FEDERAL EMERGENCY SERVICE	1,241
Fee For Service (FFS) REGULAR	25
AHCCCS Specified Low-income Medicare Beneficiary (SLMB)-PART B BUY-IN	3
FFS TEMPORARY	540
AHCCCS Qualified Medicare Beneficiary (QMB) - ONLY	650
FFS PRIOR QUARTER	71
UNITEDHEALTHCARE	10,233
Department of Child Safety (DCS)/Children's Health Program (CHP) <sup>2</sup>	798
CARE1ST HEALTH PLAN	3,573
MERCY CARE PLAN	9,692
BANNER UNIV FAMILY CARE	8,048
AZ COMPLETE HEALTH CARE	10,273
HEALTH CHOICE ARIZONA	7,187
MOLINA HEALTHCARE	3,430
LTC DD DES	877
UNITEDHEALTHCARE LTC	1,705

<sup>1</sup> Individual providers may be counted more than once if contracted by more than one MCO/payor.

<sup>2</sup> SUD can be listed as a diagnosis for children 12-18 if assessed by a trained clinician. Children aged 11 years old and younger are included in this report; AHCCCS is following up with the providers to engage in education and training regarding appropriate diagnosis of children. This is addressed in more detail later in the report.

### Program Funding

AHCCCS spent approximately \$776,479,000<sup>4</sup> on Substance Use Disorder Treatment Services for members and families during State FY24. Medicaid was the largest source of funding for SUD treatment. Other major sources of funding include the Substance Use Block Grant (SUBG) and federal discretionary funds awarded to the agency.

**Table I: Substance Use Disorder Treatment Funding Summary  
State FY 2024 - July 1, 2023 to June 30, 2024**

Fund Source <sup>5</sup>	Dollar Amount	Percentage
--------------------------	---------------	------------

<sup>3</sup> Appendix A contains a list of service sites for each provider. Provider service sites may have multiple billing/servicing provider ID's using the same address so total number here will not directly correspond with the number of provider address includes in the appendix.

<sup>4</sup> This number does not include treatment services funded under the American Rescue Plan Act (ARPA) (period of performance 09/01/2021-09/30/2025). These funds predominantly support non-encounterable SUD treatment and recovery services and activities that are reimbursed through a cost reimbursement mechanism outside of the AHCCCS claims and encounters system.

<sup>5</sup> Funding in Table I represents grant, state appropriated, and local funding through TRBHAs/ACC-RBHAs as well as Medicaid funding for all AHCCCS programs including ACC-RBHA, ALTCS-EPD, ACUTE, Children's Rehabilitative Services (CRS) and the American Indian Health Plan (AIHP). Funding includes administrative components and other amounts that will not be reflected in the provider level substance abuse utilization data in this report (Table VI) which is specific to the total claims associated with a provider. Federal Discretionary funding includes, but is not limited to, the SOR II and SOR III grants and the

## Substance Use Treatment Programs State Fiscal Year 2024

Medicaid Funding (State Match and Title XIX)	\$706,586,956	90.9%

Intergovernmental Agreements: Maricopa County; City of Phoenix Central City Addiction Recovery Center	\$1,489,871	0.2%
Liquor Fees	\$72,550	Less than .1%
<b>Total Funding:</b>	<b>\$776,479,239<sup>6</sup></b>	<b>100%</b>

### Enrolled and Served Demographics

AHCCCS policy requires that members with behavioral health needs undergo a clinical assessment to be reviewed by a clinician through a mental health or substance use treatment program. The information gathered during this assessment process includes several identifiable factors, such as race and ethnicity, gender, and reasons for seeking treatment. Members identified in this report include those with a SUD diagnosis listed as the first, second, third, fourth, or fifth diagnosis in a billing statement who were enrolled in AHCCCS and received a SUD treatment service (Appendix A) during State FY24.

The tables below detail the member demographics by GSA and provide statewide totals. In State FY 2024, there were 273,319 members enrolled in AHCCCS who received at least one SUD treatment service. The Central GSA has the largest AHCCCS population in the state and consistent with its overall AHCCCS membership, represents 62.2% of the members receiving SUD treatment services.

**Table II: Members Served with a Substance Use Disorder by GSA State FY 2024 - July 1, 2023 to June 30, 2024.**

GSAs	Count	Percentage
North	43,300	15.8%
South	63,766	23%
Central	170,956	62.2%
<b>Statewide<sup>7</sup></b>	<b>273,319</b>	<b>100.0%</b>

State Pilot Grant Program for Treatment of Pregnant and Postpartum Women (PPW-PLT). The State Appropriated line represents Crisis Services for individuals with a SUD which includes behavioral health services.

<sup>6</sup> Total expenditures reported in this report will not align with the alcohol and drug abuse expenditures reflected in the Behavioral Health Services Annual Report Fiscal Year 2024. The methodology used to report SUD expenditures in this report includes information collected from all claims or encounters with and SUD diagnosis on any section of the claim.

<sup>7</sup> Members can and do move from one category, i.e. GSA, to another within the reporting period. Each row represents an unduplicated count of members, and the summary line is distinct in total across the entire table (statewide).

## Substance Use Treatment Programs State Fiscal Year 2024

**Table III: Gender of Members Served with a Substance Use Disorder by GSA State FY 2024 - July 1, 2023 to June 30, 2024.<sup>8</sup>**

### **Gender**

The percentage of males versus females served is consistent between GSAs and statewide, with the SUD treatment population comprising more men than women—54.9% versus 45.1%, respectively. This statistic remains consistent with the data reported for the prior year.

Gender <sup>9</sup>	North		South		Central		Statewide	
	Count	Percentage	Count	Percentage	Count	Percentage	Count	Percentage
Female	19,551	45.2%	28,515	44.8%	77,151	45.1%	<b>123,370</b>	45.1%
Male	23,749	54.8%	35,251	55.2%	93,805	54.9%	<b>149,949</b>	54.9%
<b>Totals</b>	<b>43,300</b>	100.0%	<b>63,766</b>	100.0%	<b>170,956</b>	100.0%	<b>273,319</b>	100.0%

### **Race and Ethnicity**

The majority (49.79%) of members who were enrolled and received a SUD treatment service in State FY 2024 identified as White. As the table illustrates, about 8.05% of members enrolled and served were African American, 12.14% were American Indian, less than 1% were Asian, and less than 1% were Native Hawaiian/Pacific Islander. Statewide, about 1% of members enrolled and served identified as Hispanic.

**Table IV: Race/Ethnicity of Members Served with a Substance Use Disorder by GSA State FY 2024 - July 1, 2023 to June 30, 2024<sup>10</sup>**

Race/ Ethnicity <sup>11</sup>	North		South		Central		Statewide	
	Count	Percentage	Count	Percentage	Count	Percentage	Count	Percentage

<b>Summary</b>	<b>43,300</b>	<b>100.0%</b>	<b>63,766</b>	<b>100.00%</b>	<b>170,956</b>	<b>100.00%</b>	<b>273,319</b>	<b>100.00%</b>

### Age

An aggregate review of the data detailing members' age indicates most members with a SUD diagnosis and served in State FY 2024 were adults over age 18, with those between the ages of 25 – 44 accounting for almost half of all members (47.62%). Additionally, 33.21% of members enrolled and served were between the ages of 45 – 64.

Although this report indicates that 2.87% of members served were under the age of 18, this includes 165 members aged birth (0) to 4 years and 170 in the age group 5 to 11 years, totaling 335 members age 11 and under for whom a SUD diagnosis is not applicable. The earliest a SUD diagnosis can be given to a minor is age 12, rendering data for members between birth (0) and age 11 is invalid as it relates to true and appropriate services related to SUD treatment.

Three hundred and thirty-five members between the ages of birth (0) to 11 in this report were served by providers who were contracted with DCS-CHP through Mercy Care. Members may have been misdiagnosed with SUD when the use of a different code, such as a Z code, should have been used (e.g., children living with health conditions due to exposure in utero or from their living environment). AHCCCS has specifically identified the members, their diagnosis(es), and providers submitting billing for SUD services to these members 11 years old and younger and will be engaged in MCO/provider education regarding appropriate SUD diagnosis(es). AHCCCS will also be reviewing and revising AHCCCS policies and contract language to specify the expectation that appropriate diagnosis(es) are provided to members, specifically in relation to age-appropriate diagnosis based on formal clinical assessment. AHCCCS will also be revising the AHCCCS Behavioral Health Clinical Chart Audit (BHCCA) tool and instructions to ensure that appropriate diagnostic practices are assessed during the chart audits of providers. The inclusion of this specific area in the BHCCA will enable AHCCCS to identify providers using inappropriate diagnoses and formally address those concerns with health plans through Technical Assistance, Notice of Concern, Performance Improvement Plan, and a Capitation Plan if the issue is not resolved.

**Table V: Age of Members Served with a Substance Use Disorder by GSA State FY 2024 - July 1, 2023 to June 30, 2024**

### Substance Use Disorders Addressed by the Programs

Table VI below illustrates the number of members with each SUD diagnosis by substance use type as identified via provider billing. Alcohol (29.64%) and Opiates (25.48%) were the most commonly reported substances used statewide by those in treatment in State FY 2024, followed by Marijuana/Hashish at 21.45% and Methamphetamine/Other Stimulants at 23.10%. The most common substance used varied by GSA. In the North GSA (41.45%) and Central GSA (29.64%) it was Alcohol and Opiates in the South GSA (28.24%). However, a significant portion of the data reflects the “Other Substance,” which may represent various substance use types.

**Table VI: Substance Use Diagnosis(es) Type by GSA State FY 2024 - July 1, 2023 to June 30, 2024**

### Summary of Services

AHCCCS maintains a comprehensive service delivery network providing behavioral health prevention, intervention, and treatment programs to members with general mental health conditions, a designation of Serious Emotional Disturbances (SED) (among children and adolescents), Serious Mental Illness (SMI) (among adults), and/or SUD. AHCCCS covers a variety of age-appropriate SUD screening services.

With respect to SUD treatment, AHCCCS works with Contractors and TRBHAs to ensure the service delivery network presents individuals with a choice of multiple, highly qualified providers, each offering varying levels of care spanning multiple treatment modalities. AHCCCS continues to work with Contractors toward ensuring a robust network of SUD providers to serve members throughout Arizona.

Services are grouped into eight major categories: inpatient, support, medical/pharmacy, residential services, treatment, crisis, behavioral health day programs, and rehabilitation. Table VII details the array of SUD services offered.

**Table VII: Services Available to Members State FY 2024 - July 1, 2023 to June 30, 2024<sup>16</sup>**

Service Category <sup>17</sup>	Description
1. Inpatient Services	Inpatient detoxification and treatment services delivered in hospitals and subacute facilities, including Level I residential treatment centers that provide 24-hour supervision, an intensive treatment program, and on-site medical services.

<sup>15</sup> Members may be counted more than once in this table if they have more than one diagnosis listed on a single claim or encounter.

<sup>16</sup> Members can and do move from one category, i.e. GSA, to another within the reporting period. Each row represents an unduplicated count of members, and the summary line is distinct in total across the entire table (statewide).

<sup>17</sup> [AHCCCS Medical Policy Manual \(AMPM\) 310-B Title XIX/XXI Behavioral Health Services Benefit](#) and AHCCCS list of behavioral health service codes

## Substance Use Treatment Programs State Fiscal Year 2024

2. Support Services	Case management, personal care services, home care training, family support, self-help/peer support and recovery coaching services, therapeutic foster care (TFC), unskilled respite care, permanent supportive housing, and transportation.
3. Medical and Pharmacy	Medications and medical procedures (e.g., laboratory/radiology and medical imaging, medical management, and electro-convulsive therapy [ECT]) that relieve symptoms of addiction and/or promote or enhance recovery from addiction. Pharmacy has been separated in the expenditure table below.
4. Residential Services	Residential treatment with 24-hour supervision. Skills training and development; psychosocial rehabilitation living in skills training, cognitive rehabilitation, health promotion, psychoeducational services.
5. Behavioral Health Day Programs	Skills training and ongoing support to improve the individual's ability to function within the community. Specialized outpatient substance abuse programs provided to a person, group of persons, and/or families in a variety of settings.
6. Treatment Services	Assessment, evaluation (non-court ordered), and screening services; behavioral health counseling and therapy; psychophysiological therapy and biofeedback, intensive outpatient behavioral health services
7. Crisis Intervention	Stabilization services provided in the community, hospitals, and residential treatment facilities (e.g., crisis call centers, crisis mobile teams, crisis observation and stabilization, etc.)
8. Rehabilitation Services	Living skills training, cognitive rehabilitation, health promotion, and ongoing support to maintain employment.

The services listed in Table VII are available to all AHCCCS members. Limitations may apply to grant-funded services and are covered based on each members' individualized treatment plan. Additional Non-Title XIX/XXI covered behavioral health services for members with SUD diagnosis(es) are outlined in the AHCCCS Medical Policy Manual (AMPM) Policy 320-T1<sup>18</sup> and Exhibit 300-2B.<sup>19</sup>

Table VIII shows utilization of these service categories via the number of claims, and amounts paid to providers, for AHCCCS members diagnosed with a SUD diagnosis(es) as a first, second, third, fourth, or fifth diagnosis. It should be noted that the data in Table VI represents all services included in Table V provided to members with a SUD diagnosis who received at least one paid service from any of the providers in Appendix A.

As indicated in Table VIII on a statewide basis, medical services were utilized the most at 4,635,520 services provided, costing \$106,053,581 followed by support services at 1,913,228 services provided and costing \$145,141,06.

### Summary of Medication-Assisted Treatment (MAT) Services

MAT services are defined in AMPM 660<sup>21</sup> as “The use of medications in combination with counseling and behavioral therapies for the treatment of substance use disorder.” MAT is considered a gold-standard, evidence-based treatment modality for SUD. According to SAMHSA,<sup>22</sup> research shows that this combination of medication and therapy can successfully treat SUD, help sustain recovery and prevent or reduce opioid overdose. AHCCCS

<sup>20</sup> Data Source: AHCCCS Encounter and Claims Data

<sup>21</sup> [AHCCCS Medical Policy Manual 660 Opioid Treatment Program](#)

<sup>22</sup> [SAMHSA Medications for Substance Use Disorders](#)

## Substance Use Treatment Programs State Fiscal Year 2024

requires MCOs, TRBHAs, and Contracted Health Plans to maintain a comprehensive network of MAT providers throughout the state. In line with the evidence-based best practice for SUD treatment, MAT, Medications for Opioid Use Disorder (MOUD), and Medications for Alcohol Use Disorder (MAUD) treatment providers use a combination of counseling and ancillary support services with medications for the treatment of SUD. While MAT services are often focused on the Medications for OUD (MOUD) such as methadone, buprenorphine (Suboxone and/or Subutex), or naltrexone, it is important to recognize that MAT may also refer to MAUD. AHCCCS covers MAT medications and services to ensure the availability of necessary, safe, and cost-effective medications for the treatment of applicable SUDs.

Through AHCCCS’ response to the opioid epidemic, efforts have been focused toward enhancing the State’s multi-sector strategic plan to address the gaps in prevention, treatment, and recovery support. These specific initiatives include increasing access to OUD treatment by expanding access to OUD specific MAT, increasing public awareness through stigma reduction and education, enlisting new OUD specific MAT providers, ensuring 24/7 access to care points, increasing access to peer support services, and increasing recovery support options. AHCCCS maintains the [Opioid Services Locator](#), a real-time, public-facing digital platform to identify resources including MOUD availability, points of naloxone distribution, and treatment bed availability. Individuals may filter by type of services, ZIP code, agency, and/or population that a provider may serve.

Table IX details unique member counts for MAT utilization by GSA. Across the state, a total of 36,361 members utilized MAT medication services, the majority (65.88%) in the Central GSA.<sup>23 24 25 26</sup> Internal AHCCCS analysis also indicated there was no overlap between inpatient and BHRF settings in conjunction with MAT Services.

**Table IX: MAT Utilization**

MAT Utilization	North	South	Central	Statewide
	Number of Members Utilizing	Number of Members Utilizing	Number of Members Utilizing	Number of Members Utilizing
Total	3,549	9,492	23,956	36,361

Table X details unique member counts utilizing MAT services as well as the additional services listed. Support Services were most frequently used in conjunction with MAT at 31,745 members, which comprised 96.03% of the total use Statewide. Treatment and medical services were the second and third services used by members in conjunction with MAT Statewide. In each GSA, support and treatment services were consistently the most utilized services for members engaged in MAT treatment.

<sup>23</sup> Data Source: AHCCCS Encounter and Claims Data.

<sup>24</sup> Utilization data used in this report are for dates of service in State Fiscal Year (SFY) 2024 from July 1, 2023 through June 30, 2024 and were extracted in November 2024. Due to the four-month lag from the last date of service, data may be slightly understated.

<sup>25</sup> Medication Assisted Treatment (MAT) in this report refers to members diagnosed with Opiate Use Disorder (OUD) (diagnosed within 90 days of the MAT) who are receiving medication to treat opioid dependence and addiction.

<sup>26</sup> Members can and do move from one category, (i.e., GSA, to another within the reporting period). Each row represents an unduplicated count of members, and the summary line is distinct in total across the entire table.

## Substance Use Treatment Programs State Fiscal Year 2024

<b>Distinct Member Count Summary</b>	<b>3,249</b>	<b>9,182</b>	<b>21,653</b>	<b>33,163</b>

Another key component of Arizona’s strategy for preventing overdose deaths from opioids is through increasing community access to naloxone, a lifesaving opioid overdose reversal medication. AHCCCS continues to partner with contracted network providers and first responders to enhance statewide naloxone distribution and accessibility. AHCCCS State Opioid Response (SOR) Grant and Substance Use Block Grant (SUBG) funds have supported this effort through partnerships with the Arizona Department of Health Services (ADHS) as well as Sonoran Prevention Works (SPW); each have acted as essential figures in the distribution of naloxone to several entities and the public. AHCCCS partners with ADHS and supplies naloxone to a variety of community organizations including county health departments, community health centers, coalitions, harm reduction organizations, colleges and high schools, faith-based organizations, and other organizations/agencies reaching populations at high risk of overdose. ADHS, in partnership with AHCCCS, also supplies naloxone to first responders and hospital emergency departments who encounter particularly vulnerable and overdose-susceptible populations. From November 2023 through September 2024, more than 50,000 naloxone kits were given to these groups using AHCCCS grant funding. Naloxone administration data gathered by ADHS recorded that as of November 2024, 6,312 overdose reversals were reported by community partners, 70% of suspected non-fatal overdoses responded with naloxone administered, and 1.6 average naloxone doses administered per suspected non-fatal opioid overdose response.<sup>27</sup> SPW supplements these efforts but focuses on street-based naloxone distribution directly to people who are actively using drugs in addition to SUD treatment partner agencies. SPW published a 2023 impact report noting 166,494 doses of naloxone were distributed, 12,272 participant engagements, 52,429 kits distributed, and 4,420 overdose reversals were reported back to the SPW staff.<sup>28</sup> Additionally, AHCCCS has developed policies and contract language for ACC-RBHAs and their provider networks to

<sup>27</sup> <https://www.azdhs.gov/opioid/#dashboards-naloxone>

<sup>28</sup> <https://spwaz.org/2023-annual-report/>

## Substance Use Treatment Programs State Fiscal Year 2024

ensure implementation of direct service, community naloxone distribution networks, to meet the needs of the population. Providers focus specifically on the most vulnerable populations for opioid overdose including individuals living in poverty, those transitioning out of the criminal justice system, and those with true and perceived barriers to obtaining a prescription for the medication.

### Summary of Substance Use Disorder Services (SUDS) Fund

The SUDS are state appropriated resources that pay for direct treatment services for uninsured and underinsured individuals with OUD. The Executive Budget supported a \$6 million transfer from the Medical Marijuana Fund into the SUDS Fund to continue providing services beginning State FY22 after the initial \$10 million appropriation ended in 2021. The SUDS fund enables access to care including substance use disorder treatment, rehabilitation, intensive outpatient treatment medical services, MAT, peer and family support, case management, crisis intervention, inpatient services, detoxification, residential services, day programs, transportation, and assistance with high copays or deductibles, which often exist as a barrier to access to treatment. AHCCCS reimburses the health plans with lines of business operating under the ACC-RBHAs and the TRBHAs for the provision of direct treatment services. As of the end of State FY24, the total award of \$6 million has been fully expended.<sup>29</sup>

### Evaluation

A full application/plan for the SUBG funds is due to the Substance Abuse Mental Health Services Administration (SAMHSA) every two years. As part of the application/plan, AHCCCS establishes goals and objectives related to SUD treatment and recovery services that includes baseline measures and 1-year and 2-year targets for the planning period for each priority population or service as outlined by SAMHSA. Using these required focus areas, AHCCCS uses recent needs assessments, reports, and stakeholder engagement information to develop indicators and targets that are most relevant to our state. Progress on these goals and objectives is then reported annually to SAMHSA in the Annual SUBG Report in December. Once approved by SAMHSA, the finalized reports can be found on the [AHCCCS SUBG webpage](#).

The relevant goals, objectives and progress reported for the most recent fiscal year are as follows<sup>30</sup>:

1. Increase the utilization of SUD treatment and related medical services for women, pregnant and postpartum women and their babies. Objectives and progress are as follows:
  - 1.1. *Increase the % of females with an SUD diagnosis who receive any SUD treatment service.* The percent of females with an SUD diagnosis who receive an SUD treatment service reduced by a negligible percentage point, from 99.44% in SFY2023 to 99.35% in SFY2024.
  - 1.2. *Increase the % of pregnant and postpartum females with an SUD diagnosis who received an SUD treatment service.* The percent of pregnant and postpartum females with an SUD diagnosis who receive an SUD treatment service reduced by a negligible percentage point, from 99.43% in SFY2023 to 99.39% in SFY2024.
  - 1.3. *Increase the % of pregnant and postpartum females with an SUD diagnosis who received an OB, prenatal care, and/or postnatal care service.* The percent of pregnant and postpartum females

---

<sup>29</sup> AHCCCS Substance Use Disorder Summary State Fiscal Year 2024, submitted to the Arizona Governor's Office October 24, 2024.

<sup>30</sup> A number of the SUD treatment and recovery services objectives were new as of September 1, 2023, and were reported on for the first time in December of 2024. Limitations exist within some of the objectives identified in the application/plan as reported. AHCCCS claims and encounters are not fully adjudicated for SFY2024 reporting period and are not considered final at the time of this writing.

## Substance Use Treatment Programs State Fiscal Year 2024

with an SUD diagnosis who receive an OB, prenatal care, and/or postnatal care service reduced by a negligible percentage point, from 27.56% in SFY2023 to 27.06% in SFY2024.

- 1.4. *Increase the % of babies with a diagnosis of Neonatal Abstinence Syndrome (NAS), Substance Exposed Newborns (SEN), or Neonatal Opioid Withdrawal Syndrome (NOWS) who received a treatment service within 30 days of birth.* The percentage of babies with a diagnosis of NAS, SEN, or NOWS who received a treatment service within 30 days of birth reduced by a negligible percentage point, from 98.02% in SFY2023 to 97.04% in SFY2024.
2. Increase the number of tuberculosis (TB) screenings for members entering substance use treatment.
  - 2.1. *Increase documentation around screenings for TB and related services from 46% in SFY2022 to 50% in SFY2023.* In SFY2023, 40% of member case files reviewed included documentation of TB screening. Although there are many factors that contribute to this, it should be noted that some GSAs have a relatively small sample size which can make a substantial difference in the percentage of files that contain this documentation. Additionally, capacity varies across GSAs, which may at least partially explain a large disparity in this measure across GSAs. For example, in one GSA, 96% of member case files documented TB screening.
3. Increase the implementation of the statewide harm reduction program to reduce harms associated with substance use.
  - 3.1. *Increase the number of unique individuals served by the statewide harm reduction program by 5% each year, from a baseline of 70,187 (Jan 1 - Dec 31, 2022) to 73,696 (Jan 1 - Dec 31, 2023).* In the calendar year 2024, the statewide harm reduction program reached 58,402 unique individuals. However, the provider implemented a new data collection system that allowed for more accuracy as it relates to counting unduplicated individuals. As such, the number may be more accurate but also may be lower compared to the use of the previous data collection method. The program met other goals such as distributing 150,000 doses of naloxone statewide, engaging more than 7,000 community members in evidence-based harm reduction education training sessions, and referring nearly 3,000 individuals who use drugs to additional care and services related to mental health, substance use disorder, and infectious diseases.
4. Provide access to services and supports that increase opportunities and success for recovery among SUD members
  - 4.1. *Increase the number of Oxford Houses in Arizona that are supported by the ACC-RBHAs from 97 in SFY2023 to 112 in SFY2024.* The number of Oxford Homes in Arizona was 118 at the close of SFY2024. AHCCCS and the ACC-RBHAs continue to support the expansion of Oxford House to provide more affordable and supportive options for substance-free living environments that assist people to maintain their recovery.
  - 4.2. *Increase the number of members served with SUD Recovery Housing through Project Health and Home (PHH) from 0 in FY2023 to 62 in FFY2024.* The number of members served by the end of FFY2024 was 62. This project was launched using SUBG supplemental funds in FFY2023 and has already begun to demonstrate decreased health care costs for members in the program.

AHCCCS is also required to report on National Outcome Measures (NOMs) for treatment and recovery services within the SUBG annual report to SAMHSA. These outcomes are reported from the Treatment Episode Data Set (TEDS) system. NOMs include employment/education status, stability of housing, criminal justice involvement, change in abstinence from alcohol use, change in abstinence from other drug use, social support of recovery, and length of stay of clients completing treatment. TEDS data is self-reported from providers and is limited in the

## Substance Use Treatment Programs State Fiscal Year 2024

number of episodes reported. For more information, visit [SAMHSA TEDS Frequently Asked Questions](#).

AHCCCS recognizes its role and responsibility to engage in oversight and monitoring. In the coming year, AHCCCS plans to engage in enhanced oversight and monitoring of SUD services and treatment by augmenting the annual BHCCA used by health plans to audit behavioral health providers (including SUD) on an annual basis. Currently the BHCCA does not specifically measure outcomes of services provided to members or member benefits from services they receive; however, the next iteration of the BHCCA for 2025-2026 will measure outcomes in addition to the quality, appropriateness, effectiveness, and efficiency of services provided. Further, the BHCCA will assess the appropriateness of diagnoses, diagnostic assessment, and treatment based on best practices to address the member’s diagnosis(es), functioning, and goals. These efforts, along with established activities to monitor and oversee services, will enable AHCCCS to better understand SUD treatment and services being provided, support the contractors and providers that provide SUD treatment and services, and improve the lives of members receiving these services.
