7. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

The AHCCCS Differential Adjusted Payment (DAP) initiative is strategically designed to reward quality outcomes and reduce growth in the cost of health care. The objective of DAP delineated in this proposed rulemaking is to reward hospitals and hospital-based free standing emergency departments who have taken designated actions that improve patients' care experience, improve members' health, and reduce the cost of care. Hospitals and hospital-based emergency departments that meet the outlined criteria delineated in the proposed rule for the time period of October 1, 2025, through September 30, 2026 (CYE 2026), will be eligible for increased reimbursement from AHCCCS and its contracted health plans for both inpatient and outpatient services. This initiative reflects the AHCCCS Administration's continued commitment to promoting greater accountability within the health care delivery system.

The proposed rule will amend and clarify the conditions under which hospitals and hospital-based emergency departments may qualify for DAP during the specified timeframe. Key qualifying activities include engagement with the Health Information Exchange, participation in the Naloxone Distribution Program, Maternal Syphilis Program, and/or Medications for Opioid Use Disorder Program. The proposed rulemaking will authorize AHCCCS to support the ongoing efforts to recognize innovation and expand the reach of its value-based care model, emphasizing improved patient care and reduced growth in the cost of care.

8. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

10. A summary of the economic, small business, and consumer impact:

The Administration anticipates that the DAP rulemaking will result in approximately \$58.9 million of additional payments for the contract year October 1, 2025 through September 30, 2026 to 128 hospitals.

11. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:

AHCCCS published a Notice of Proposed Rulemaking for above rules in the Arizona Administrative Register (AAR) on June 6, 2025. Subsequently, due to newly communicated federal requirements, substantial modifications to the Differential Adjusted Payment (DAP) program became necessary. Specifically, AHCCCS has historically had multiple DAPs with varying percentage increases available to the hospitals. With CMS's recent tightened requirements on the Average Commercial Rate, AHCCCS had to eliminate some DAPs for the hospitals. Rather than having multiple DAPs with varying increase percentages, AHCCCS can now only offer one hospital DAP for all facilities. To ensure continued compliance and proper alignment of rules with these new substantial changes, AHCCCS needed to address them in a supplemental rulemaking. AHCCCS, therefore, published a Notice of Supplemental Proposed Rulemaking in the AAR on September 12, 2025 reflecting these changes. There were no further changes to rules between the published Notice of Supplemental Proposed Rulemaking and this Notice of Final Rulemaking.

12. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:
